① NO-4

According to this graph, the number of men and women studying far away in Britain shows the following pattern.

In the case of men, the number of men dropped slightly from 100,000 in 1970/71 to 850 million in 1990/91

However, this figure went back to about 850 thousand in 1990/91 from 800 thousand in 1980/81. The

number of full-time teachers is down now, however the number of part-time teachers has greatly improved.

on the other hand, in the case of women, the amount of full-time and part-time education has increased

during this period.

From about 700 thousand in 1970/71, these numbers rose to 880 million in 1980/81, to 1100 million in 1990/91. In terms of full time education, this number has increased by about 260 to 900 in 1990/91.

On the other hand, in terms of part-time education this number has increased significantly between 1980/81 and 1970/73. However this number increased slightly between 1980/81 and 1990/91.
